

Writing of the recent exposure in which it was shown that the life insurance companies had contributed immense sums to the Republican National Campaign fund, Mr. Watterson has the following:

Not a bit of party gain can be made by Democrats of this transaction. They may say "I told you so," and prove it. But, the end will be speedy oblivion, more money to the elections, politics the same old suppression of the good and development of the bad, and all for the benefit of gamblers and tricksters, playing upon the credulity and profiting off the sacrifices of the great body of the people.

Washington, D. C., Sept. 21.—Henry R. Prewitt, State Insurance Commissioner of Kentucky, who is here on a mission to New Hampshire to attend the annual convention of State Insurance Commissioners, said that he does not consider Federal supervision of life insurance either practicable or desirable. If the State officials in the various commonwealths, whose business it is to watch over the companies, are alert and active, there will be no need of Federal supervision, he thinks.

Mr. Prewitt said Judge Paynter is a sure winner in the gubernatorial race.

Washington, D. C., Sept. 25.—President Roosevelt's trip through the South the latter half of October will not be merely to see and be seen. It will have a distinct tinge of Roosevelt politics. At least that is the impression that is just now prevailing here and eliciting lively speculations. In short, it is believed that Mr. Roosevelt will in his brief speeches take the high ground of the national welfare and appeal to the South for effort upon her Republican tincture. Southern interests in backing him in several of his policies, notably, railway rate legislation, ratification of the agreement with San Domingo, defense of the Panama canal, passage of legislation for the Philippines, to be recommended by Secretary Taft, and other vital subjects.

It is believed that the President realizing that he will need Mr. Bryan as well as Republican votes to maintain him, will try to make it plain to broadness that he will proceed on toward, nonpartisan principles, and that it will effectively create a sentiment as considerable in its support of the Administration that only the most stubborn of Democrats from Southern States in Congress would vote against him. Moreover, it is said to be the cherished dream of the President that this style of appeal to Bryan shall serve to unite the country as it has never been united, and his Administration with the triumph of a genuine national patriotism of which he would be the central focal figure.

Some idea of the size of the orange crop of California can be obtained by reading the following:

According to reports of traffic officials of the Union, Pacific and Santa Fe and the Southern Pacific, the number of cars of orange sent East during the season just closed was 29,000. This includes shipments from this country and the San Joaquin section, as well as from Southern California, the bulk, however, coming from the latter section. All shipments are included that went out of the State by rail. In these 29,000 cars there were 10,185,000 boxes. The total value of the shipments was approximately \$2,250,000. Of this amount it is figured that the orange growers and shippers got \$1,500,000. The remainder, or 745,000, went to the railroads and the refrigerator lines for freight and icing charges.

Concerning some of our mountain preachers at the General Convention of the Christian Church at Mayville held last week, a city paper has the following:

The address of Homer Vanover, of Pikeville, and S. J. Short, of Paintsville, aroused renewed interest in the Christian mountain workers. Over \$1,000 was subscribed to build a new dormitory to the school at Morehead, which together with the school at Hazel Green, is doing excellent work.

A new postoffice in Texas has been  
named Damsight. Is this hindsight  
or foresight?

Mr. Schiff says that the corruption  
in the Legislature "was all Hyde." In  
that case, the general disposition will  
be to include the horns, hoofs and  
tail with the Hyde.

Mrs. Lackey's administration as  
Supt. of Schools has shown her to  
be specially fitted for the place.  
She strives to raise the standard of  
education, and this means a higher  
standard of morals, intelligence and  
citizenship.

Secretary of the treasury Leslie  
M. Shaw will leave the Cabinet Feb-  
ruary 1, 1906. He makes the defini-  
tive announcement in a letter to the  
Polk County Republican Club.

Mr. Shaw will then begin his Presi-  
dential campaign along his friends.

Chicago, Sept. 20.—It has been de-  
cided by the physicians in attendance  
upon President Harper, of Chicago  
University, of Chicago, that  
nothing will save his life but a  
surgical operation of heroic character.  
It is admitted that there is practi-  
cally no chance of saving his life un-  
less the cancer which is killing him  
can be checked by the removal of a  
portion of the large intestine.

In electing W. D. O'Neal for County  
Attorney, you have the satisfaction of  
knowing that you will have constantly  
on duty an able guardian of your  
interests as a citizen and as a tax-  
payer. He is sober, conscientious,  
fearless. In short, he is just such a  
man as every good citizen should want  
in that important position, regardless  
of whether his name appears on the  
ticket under the rooster or under the  
cabin.

All honor to the editor of the  
weekly newspaper. He is the man  
who has time to get near to the  
heart of the people. He meets the  
men and women of all classes and  
learns of the aspirations of the peo-  
ple at first hand. He goes to the  
fairs and races and church doings,  
and he gets his inspiration from un-  
polluted sources. He is better able  
to reflect the sentiment of the peo-  
ple than the man who is forced by  
circumstances, to sit all day in a  
dingy office in a high building to  
fill a daily paper. The country  
newspaper man is the real agent of  
the people. What he writes in for  
the heart. All honor to him.—Chicago

## For Lung Troubles

Ayer's Cherry Pectoral cer-  
tainly cures coughs, colds,  
bronchitis, consumption. And  
it certainly strengthens weak  
throats and weak lungs.  
There can be no mistake about  
this. You know it is true. And  
your own doctor will say so.  
"My little boy had a terrible cough. I tried  
everything I could find of but he was still  
ill. I tried Ayer's Cherry Pectoral. The first  
night he was better, and he was perfectly  
well in a few days."—Mrs. A. J.

Dr. Watson's State Senator, would  
hear that this section would have a  
hearing at Frankfort on whatever it  
may rightfully demand, and that the  
hearing would be backed by a force-  
ful and successful advocate.

Vote for Burns for Sheriff and have  
the business of the office done in a  
satisfactory manner. To be a good  
Sheriff, a man should have energy,  
good business capacity, education, ex-  
perience, honesty, sobriety and the  
strictest integrity.

Candidates Woods, Skeens and Hays  
have all been tried in the respective  
positions for which they are asking  
to be re-elected and the people are  
apparently satisfied with them. Re-  
ports say they are running away  
ahead of the bounds.

L. F. Zerfoss, of Ashland, has been  
nominated by the Democrats of Boyd  
and Lawrence counties for the Leg-  
islature. Mr. W. M. Fulkerson, of  
this place, decided to not allow his  
name to go before the district con-  
vention. Mr. Zerfoss is one of Ash-  
land's best lawyers, and is a volun-  
teer, energetic, able gentleman. He will  
honor the district as our repre-  
sentative at Frankfort. Vote for him,  
regardless of politics.

A special to the Courier-Journal  
from Catlettsburg tells of the "un-  
animous" nomination of one man to the  
state senate from Boyd and Law-  
rence counties and the "unanimous"  
nomination of another to the lower  
house from the Ninety-eight leg-  
islative district, and the special adds:  
"Both nominees are for Judge Pay-  
nter for United States Senator."  
Sure! It is easy enough to get un-  
animous nominations in districts  
that are hopelessly Republican, but  
the object of the Courier-Journal's  
special was to make people down  
this way believe Paynter is running  
like wildfire in the mountains. We  
next look for the news of the "un-  
animous" nomination of a Paynter  
man in Pulaski county, where the  
Republican majority is 2,100.—Owens-  
boro Messenger.

The NEWS knows of no better  
man for the United States Senate  
than Judge Paynter, and it does not  
consider these Legislative and Sen-  
atorial Districts "hopelessly" Re-  
publican.

Prof. O. G. Grady, superintendent  
of the Common schools, is in the  
middle of much trouble in his school  
work just now. Prof. Grady had oc-  
casion to chastise some boys under  
him, and the evening following one  
of the indignant fathers not him,  
knocked him down several times,  
and kicked and beat him numerously.  
Public feeling is at fever heat,  
and the people are all arrayed either  
for or against the Superintendent.  
Sensational developments may follow.

ters' Hospital. It was a success, and  
Mrs. Justice is getting along finely.  
This is the first operation of the  
kind ever performed in Ashland, and  
adds more laurels to the proverbial  
skill of Dr. P. C. Layne, who did the  
work assisted by Drs. Wade, Miller and  
A. H. Moore, of Ashland, Dr. J. L.  
Williams, of Catlettsburg, and Dr.  
G. H. O'Beck, of Grayson. Press.

## DEAFNESS CANNOT BE CURED

By local applications, as they can  
not reach the diseased portion of  
the ear. There is only one way  
cure deafness and that is by cat-  
aracts removal. Deafness is caused  
by an inflamed condition of the  
mucous lining of the Eustachian  
tube. When this tube is inflamed  
you have a rumbling sound or super-  
ficial hearing, and when it is en-  
tirely closed, deafness is the result,  
and unless the inflammation can be  
cut out and the tube restored to  
its normal condition, hearing will  
be destroyed forever, nine cases out  
of ten are caused by Catarrh, which is  
nothing but an inflamed condition  
of the mucous surfaces.  
We will give One Hundred Dollars  
for every case of Deafness caused by  
catarrh that cannot be cured by  
Hall's Catarrh Cure. Send for cir-  
cle.

The exact date of his trip up the valley will be announced in due time.

A fast train will be put in service on the C. & O. railroad next spring according to statements made by President Stevens on his recent trip over the road. The new train will leave Washington in the evening, and will reach Ashland about 9 o'clock, and the following morning the train will be the fastest in the road, and the number of stops will be materially reduced. Returning, the train will leave Cincinnati in the evening, arriving at Ashland about 9 o'clock.

## GOOD WARMER SHOW.

When you want an easy shave or neat hair-cut, call on Haskett. A first-class bathroom is in operation in connection with the shop. Don't forget, once having been on Main street where the concrete block was placed.

## Our Public School.

It is exceedingly gratifying to our people to know that our public school is in such a satisfactory condition. There are now nearly three hundred pupils enrolled and the percentage of attendance is very large. There has been a steady increase in the number of pupils in all the rooms, of these nearly all attend regularly. In fact, absenteeism is complained of very little. There is but little looting about the depot and other public places, a marked and agreeable contrast with some former times. In placing credit where credit belongs it is only right to say that much of the improved conditions in school matters is due to the intelligent supervision of the principal, Mr. Throp. He is known and felt as the responsible head of the school, and knowing this himself he rises to the situation and acts accordingly. Let us go further and say that the teachers in the various rooms are doing excellent work and seem in harmony with the principal. And the trustees are not slack. The concerns of the school have their attention, and are properly managed. Parents and our people generally are apparently taking more interest in our school than they have taken in years past, sending their children more regularly and in every way showing that they are alive to the vital importance of an education. We hope that all this may continue, and that the present may be the most successful year in the history of the Louisa Public School.

## Fiscal Court.

The Lawrence Fiscal Court met last Tuesday and is still in session. The consideration of claims was the first business entered upon, after laying the levy at the rate as heretofore. An order was made to act upon the claims in the order in which they appeared on the docket. This rule was violated, however, a large number being "jumped" and brought up again after the road and bridge fund was exhausted. According to the announcement made, the road and bridge fund for 1905 is already consumed and those who were so situated as to have their claims "jumped" must wait until the fund of 1906 becomes available.

## Registration.

At his own request Revenue Agent L. T. Shivers has been transferred from this district to the Cincinnati division, which is composed of Ohio, Indiana and part of Michigan. In an new field Mr. Shivers' work will be similar to that performed by him in this section. He had been service in the Cincinnati district before, and agent Bowen, the head of the division, was pleased with the manner in which the work was done. In his new field the most of Agent Mr. Shivers' travel is by rail, doing away with the arduous horseback trips. This change is a distinct promotion for a very efficient Revenue officer. Mr. McIntire is a man of undoubted courage and honesty, qualities essential in the making up of a man in his position.

We understand that the boys are at school at the Ohio University at Delaware, and that when they have finished the family will return to Louisa and make it their home. In view of the fact that diphtheria is prevalent in the upper middle and seems to be coming this way, it is well to listen to a few hints regarding its prevention, leaving its treatment entirely to the medical men. Throat and mouth cleanliness is the paramount precaution. But it is not enough. Keep a strong solution of water and chloride of lime as a mouth and throat wash after each meal and at bedtime, and when there is the least suspicion of complaint of sore throat use the peroxide solution. Examine throat often, and on the first sign of hoarse voice send for a doctor and have the rest to him and Providence.

Last Sunday afternoon little Jack Thomas returned scores of his young friends in honor of the ninth anniversary of his birth. The beautiful home of Mr. and Mrs. Thomas is an ideal spot for the games and frolics of the little and big ones, and they had a delightful time. Jack's guests testified their appreciation of his hospitality by many presents and the hearty consumption of the toothsome refreshment for such occasion made and provided.

Council sat in regular session Tuesday night. Every claim against the city was paid. It was ordered that on the tenth of this month the paving of the fronts of lots heretofore ordered and not completed would be let to the lowest and best bidder. This indicates that there will be something doing.

Our line of fancy slippers and high grade shoes is complete. Prompt attention to all orders. Frost & Garred's, 211 New Street, 2nd Floor, Huntington, W. Va.

Last Monday Isaac Chambers, the 15 year old son of Wade Chambers, of Callinsburg, was brought before Judge Vinson and a jury and adjudged a lunatic. The boy is large and strong, and had lately developed very strong homicidal and incendiary tendencies. He was taken to the Sheriff at Lexington Asylum.

Mac Turner, of this place, was a student at the State College, covered himself with dust and glory in the football game played by his club last Saturday.

The adjournment of the Lawrence Fiscal Court began Tuesday and will probably last during the week. The adjournment of the court will probably last during the week. The adjournment of the court will probably last during the week.

## Another Old Citizen Dead.

C. H. Wilson, better known as Hammy Wilson, died in Louisa yesterday morning of consumption. He had been in bad health for a long time, but had been confined to bed only about a couple of weeks. The interment will occur this afternoon at one o'clock at the Fulkerson graveyard. Mr. Wilson was well known in this vicinity. He was the son of "Fannie" Charles Wilson, and was one of six brothers, two of whom are living. These are Eldred, of this place, and James, of Wayne county, W. Va. He had been married five times and leaves numerous children and grand children. Mr. Wilson was a man of integrity and great personal courage. He was a private in the 11th Kentucky Infantry, serving through the war, and while a soldier received disabilities for which he drew quite a liberal pension. He was about 67 years of age and leaves a low

## The Fair.

We hope the people will remember that the Lawrence County Fair begins next week and will continue two days, Friday and Saturday. This has been an abundant year and the exhibit of agricultural products at least should be large and attractive. But there is every reason for believing that the display throughout will be good. The premium list will be of the same general scope as that heretofore offered, but anyone having any article of unusual merit or beauty, in any line should not hesitate to enter it at the fair, and a class will be made for it.

There will be no exhibit of speed by horse-drawn teams, but in order to add zest to the meeting there will be a mule race. Members of the order are barred. There will also be another and attractive feature and that will be a grand parade by the Junior Order of American Mechanics, in full regalia, headed by the Louisa Brass Band. The fair and the Louisa Brass Band. The fair and the Louisa Brass Band.

As an addition to the premium list of the Lawrence County Fair this year Mr. John McHenry, Boyd county, practical and efficient road supervisor, offers five dollars for the best specification for a "Stone Highway Culvert," same not to be written or dictated by a civil engineer. This is due to a desire to interest in one of the most important subjects with which our people have to deal, and the interest he manifests in this matter is much appreciated here.

Rev. J. P. Williams, reappointed pastor of the M. E. Church South preached his first sermon of this conference year last Sunday. He was greeted by a fair sized audience in the morning, and in the evening the church was crowded. The preacher showed in face and manner the mental and physical strain of the past several weeks caused by watching and waiting at the bedside of his now deceased father-in-law and of his desperately ill child. But at both his services Mr. Williams spoke forcibly and feelingly and showed that his heart and spirit were willing and that he was going to make his year with the Louisa church one of earnest effort in the Master's cause.

Rev. Mr. Grizzle, of the M. E. Church, has been sent by his bishop to serve the congregation at this place another year. He has returned from Conference, ready to resume his pastoral work. Mr. Grizzle was acceptable to this people and they are glad to have him again.

It should always be borne in mind by the captains of industry in the South that their greatest resource is the white man. This question should be the paramount one, rising in public estimation above all others and claiming the best thought and the most earnest efforts of the Southern people. No expense can be too great to accomplish this great end. Southern Farm Magazine.

Last Saturday night's race was a welcome guest, and thanks to its dampening influence one can take a full breath without inhaling an acre more or less of real estate.
